

Coursework (SL)

In order to be able to earn the SL at CELLS, you must complete a questionnaire in Stud.IP at the beginning of the semester. Here we ask for your matriculation number, the degree and degree programme or subject you are aiming for and the SL number you require. Participation in this enquiry is a prerequisite for taking a SL at CELLS and serves to ensure the correct booking of your SL.

The SL is usually an ungraded achievement. At CELLS, the SL consists of a 5-minute presentation, which you record and submit to us as a video. You are welcome to use 1-2 slides in the background. The presentation should not be a summary of the content already presented by the lecturer, but rather that you pick out an important aspect of the topics covered and then examine it in depth.

The topics of the respective courses as well as further information in the form of literature and/or presentations are usually published by us in Stud.IP. This gives you the opportunity to choose a topic at an early stage on which you would like to complete your SL.

It is not necessary to use a (professional) animation or something similar. It is only important that it is a common file format (e.g. mp4) and that the length of 5 minutes and, if necessary, 1-2 slides is maintained. Please send the video to lehre@cells.uni-hannover.de.

SLs must be submitted by the last session of the current semester.

If the SLs in your degree programme are not yet booked online, please also submit the corresponding pre-filled form via email to lehre@cells.uni-hannover.de.
