

10 Year Anniversary Celebration

Centre for Ethics and Law
in the Life Sciences
Hannover, Germany

Ten years ago, CELLS started life as an informal research group at the Centre for Ethics and Philosophy of Science in Hannover. Since then, it has continually evolved into a Leibniz Research Initiative and subsequently into an independent institute at the Faculty of Humanities and Social Sciences at Leibniz University Hannover. To celebrate this journey and to thank all of the many people and partners who have made this success possible, we are hosting this anniversary and would be delighted if you could join us.

WEDNESDAY, NOVEMBER 14TH 2018
LEIBNIZHAUS, Holzmarkt 4-6, 30159 Hannover

Centre for
